

SecurePoint IQ

Complete Visibility. Confident Collaboration.

WHAT IS SECUREPOINT IQ?

SecurePoint IQ is a SharePoint management and security intelligence tool that gives IT teams and business leaders real-time insight into who has access to what, how data is being shared, and where risk exists.

Built by Vertilocity's Microsoft specialists, it integrates seamlessly into your Microsoft 365 environment to simplify governance, strengthen compliance, and control storage growth—without disrupting how people work.

KEY CAPABILITIES

- Security Dashboard
- Permission Reporting & Alerts
- Role-Based Controls
- Compliance-Ready Reporting
- File Intelligence Tools
- Growth & Cost Insights

WHO CAN USE SECUREPOINT IQ

- IT Administrators who need centralized oversight of permissions, compliance, and data usage.
- Compliance & Risk Officers who require accurate, exportable documentation to meet audit and regulatory standards.
- Operations and Department Leaders who rely on SharePoint for daily collaboration and want assurance that their data remains protected.
- Organizations in Regulated Industries—Healthcare, Financial Services, Legal, Manufacturing, and Nonprofit—where data integrity and compliance are mission-critical.

Collaboration only works when it's secure. That's why Vertilocity created SecurePoint IQ - the smarter way to monitor, protect, and optimize your SharePoint environment.

Gain instant, organization-wide visibility into your SharePoint environment.

View permissions, external sharing activity, and document trends from a single intuitive interface.

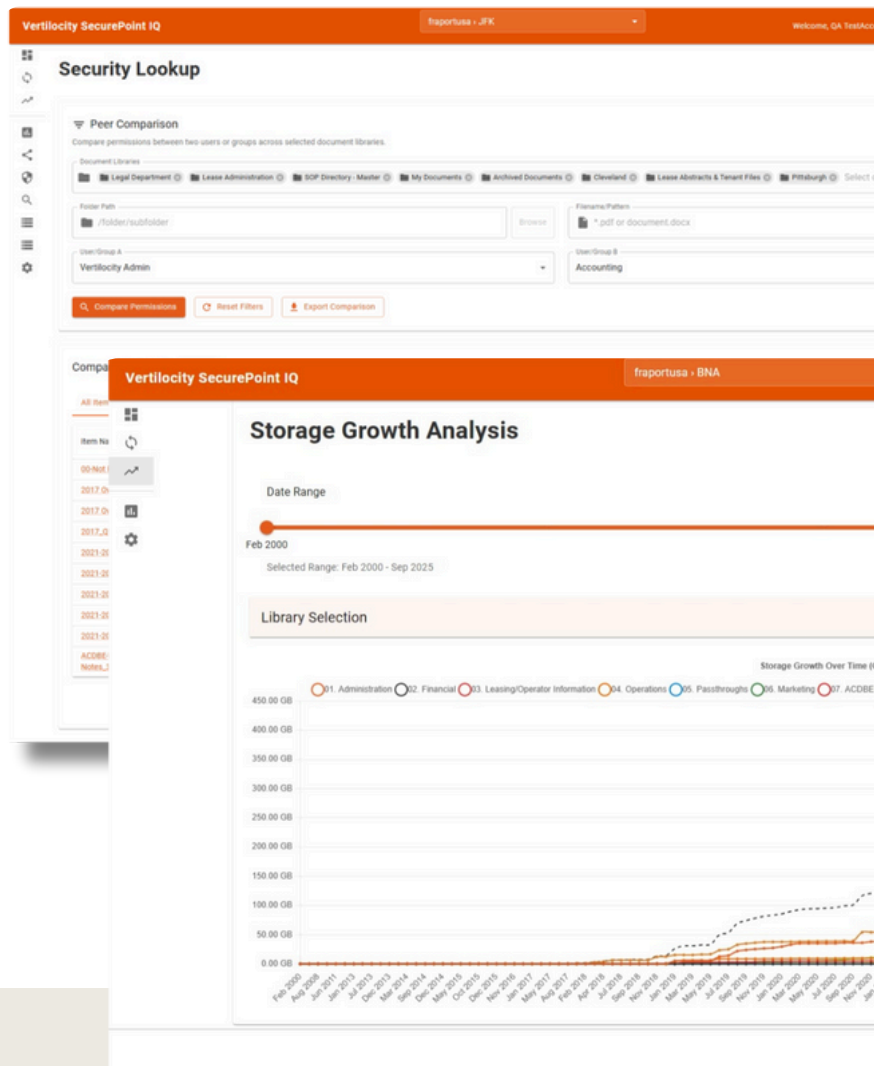

Analyze how your SharePoint environment is expanding over time.

Spot trends that may impact storage budgets or performance, and take proactive action before costs rise.

Simplify audits and reduce the administrative burden.

Generate exportable, audit-ready reports to demonstrate compliance with HIPAA, FINRA, SEC and internal governance standards

WHY VERTILOCITY

For nearly four decades, Vertilocity has helped businesses align people, processes, and technology to operate securely and efficiently.

SecurePoint IQ is the latest example of that commitment—offering practical innovation backed by real-world expertise.
